

Fall Clean-Up Day

Sandstone Charter Township

7940 County Farm Rd.

October 10, 2026

Two Sessions

Session 1) 8-11 am: Sandstone Twp residents only (tires, metal, general trash/junk, plus electronics)

Session 2) 11am - 1pm *TIRE COLLECTION* for Spring Arbor Twp residents **ONLY**

Sandstone Township has arranged for four different collection categories this fall: metal, general junk/trash, electronics, and tires. It is very helpful to have whatever you're dropping off sorted into these categories so that our unloading helpers can get you on your way as quickly as possible; tires are usually the *first* thing unloaded (semi trailer), metals are next (large OmniSource bin), then junk/trash (Emmons trucks) and electronics last. *Note* that tire collection for Spring Arbor residents starts at 11 am. The Emmons trucks will leave at that time, but the metals roll-off bin will still be available.

- OmniSource will have their large roll-off metals-only bin located at the front of our east parking lot. Appliances that contain refrigerant (air conditioners, refrigerators, freezers) are not accepted for metal recycling. A more complete description of what OmniSource will and will not accept will be published later this month on our website at www.sandstonetownship.org. Metals collected by Omni are recycled.
- Emmons Service will have 2 garbage trucks available for collection of general garbage (if it will fit in a large garbage bag, it must be bagged) junk and trash – no yard waste (brush, leaves, grass clippings, dirt, etc.) or hazardous materials (batteries, liquids, light bulbs, etc.); a more complete list of what they will *not* accept will be published later this month on our website at www.sandstonetownship.org. Materials collected by Emmons are transported to a landfill.
- Recycling Jackson will have a truck available to accept electronic devices for recycling. (Monetary donations for this non-profit service are appreciated.)
- A description of tires that will and will not be accepted will be published later this month on our website at www.sandstonetownship.org.

Please also note that the restrictions on what specific items or materials are acceptable for collection are determined by the above companies, not by the Township. The Township does, however, require that all items or materials (other than tires after 11am) be from Sandstone Township residences (not businesses or other non-residential sources; materials transported in a business vehicle are presumed to be business materials). If you have any questions regarding these restrictions, please call the Township Supervisor (Gary Britten) at 784-4712 ext. 1.
